WORK EXPERIENCE

Founder / Web Consultant

2022 – Present

Solva · Bandung, Indonesia

- Founded Solva and delivered web consulting plus implementation for education, legal, construction, tourism, hosting, and organization clients.
- Led end-to-end delivery for 10+ client websites since 2022: discovery, stack selection, PHP/WordPress/Laravel build, PageSpeed checks, launch, and handover.
- Recovered and relaunched a production school website after malware infection and repeated downtime (vacsonline.org, 2026).
- Shipped 3 major 2026 launches — vacsonline.org, slanusra.sch.id, and kusenkaca.com — focused on conversion and mobile-first usability.

Project Manager

Mar 2022 – Present · 4+ years

SDA Media · Bandung, Indonesia

- Managed concurrent web projects across education, organization, travel, and service businesses from scoping through QA, launch, and maintenance.
- Set Google PageSpeed Insights / Lighthouse checks as standard go-live criteria for client websites.
- Mentored engineers on PHP, WordPress, JavaScript, and REST API patterns through code review and pairing.
- Reduced delivery risk by clarifying requirements, defining milestones, and aligning stakeholders on scope and acceptance criteria.
- Implemented technical SEO foundations so non-engineers could maintain content confidently after launch.

Senior Web Engineer

Jul 2019 – Mar 2022 · 2 yrs 8 mos

PT. Digital Apta Media · Indonesia

- Built and maintained production PHP and JavaScript websites for 2+ years, shipping features and reliability improvements for marketing and operations teams.
- Mentored junior developers through recurring code reviews and pairing, reducing rework on shared modules.
- Converted stakeholder requirements into technical tasks and estimates, improving release predictability.
- Introduced performance practices for assets, scripts, and page structure ahead of launch.
- Delivered REST API integrations and content-driven features that reduced manual publishing work.

Full-Stack Engineer

Jul 2016 – Jul 2019 · 3 years

PT. Cipta Mega Kurnia · Indonesia

- Delivered fullstack PHP features for 3 years, including business logic, MySQL queries, validation, and API endpoints.
- Built HTML5, CSS3, and JavaScript interfaces for marketing sites, product pages, and internal tools.
- Maintained legacy modules while shipping new functionality, reducing recurring production defects.
- Collaborated with designers and project owners to shorten the path from brief to deployable release.
- Owned back-end and front-end work in the same cycle, cutting handoff delays between layers.

Instructor

Feb 2016 – 2018 · ~2 years

Binus Center Bandung · Bandung, Indonesia

- Taught practical web development and programming for ~2 academic years to beginner and intermediate students.
- Created reusable lesson materials, coding labs, quizzes, and assessments with consistent learning outcomes.
- Translated industry PHP/JavaScript practices into classroom exercises that improved job-ready skills.

Assistant Lecturer / Corrector — Computer Science

2011 – 2015 · 4 years

Klabat University · North Sulawesi, Indonesia

- Supported Computer Science teaching for 4 academic years across Programming 1, Mathematics 1, OOP, Java, Data Structures, Assembly, and Operating System Concepts.
- Facilitated makeup classes and lab practice for OOP/Java cohorts so students could catch up and finish exercises on schedule.
- Graded exams, assignments, and quizzes each term and posted results on time for lecturers and students.
- Covered up to 5 core CS subjects in one term (Jan–May 2015): OOP, Data Structures, Java, Assembly, and Operating System Concepts.

Assistant / Absenter — Village Dean Office

2012 – 2013 · 1 year

Klabat University · North Sulawesi, Indonesia

- Managed attendance tracking for off-campus and village-resident students for one academic year.
- Improved completeness of attendance records through consistent daily and weekly checks with academic staff.
